ON BOARD STEAMSHIP ALEXANDRIA,
New York, March 10, 1872.
Captain J. R. Mackay,
in command of Steamship Alexandria:
Sin—We, the undersigned, most heartily desire to testify to you our deep and and carnest appreciation of the numerous acts of kindness and consideration shown to about you ouring the voyage of your noble vessel from Naples and other Italian ports. We desire to acknowledge not only the usual attention shown to passengers by Anchor Line steamers, but also the many little courtesies (not called for or expected) of which we have been the reolipients during the voyage just completed. We sign this with great pleasure on behalf of about seventy passengers, many of whom have crossed the Atlantic several times.

Finh avenue, corner Twenty-seventh street. Sole makers of BREWSTER WAGONS, with the VERTICAL STREEL PLATES. The maximum of strength, the minimum of weight, ob-lating all spread of the axie, a prevailing source of an-oyance to those using road wagons.

To attain the highest speed a wagon should follow the horse in a direct line. This can only be accomplished by the wheels running plumb; any inclination in the axic to spread destroys the plumb of the spoke and given a lateral motion to the wheel, causing it to push out side ways. This lateral movement greatly increases the friction to be overcome by the horse, with a consequent waste of power, thus detracting from his speed in direct proportion to the spread of the axic.

With our Vertical Steel Plates we have been enabled to build wagons of the lightest weight, running so absolutely true that we have yet to hear the first complaint from our patrons.

rue that we have patrons.

See certificate from General McClellan:

New York, June 1, 1871. GENTIERES:— I have carefully examined your Patent Vertical Steel Plate Axle. I find that the addition of the Vertical Plate renders the axle about two and a half (2%) times as stiff as it would be without it.

Very respectfully, GEORGE B. McCLELLAN.

CARRIAGES AT BARGAINS.
